Make an appointment

Call to make an appointment with one of our counselors. Learn which services are best for you. Some individuals are eligible for publicly funded services. Some services are not available immediately and require placement on a waitlist for up to 12 months.

Complete an assessment

For some, paying for services is a better option than publicly funded services. This usually ensures the services will be provided more quickly. Subsidized resources go to those most in need, but do not assume any services are out of reach financially before speaking to a counselor.
